JADE

Welcome to Monsters Making Music, Behind the Scenes! - the first documentary to ever take you inside the legendary Monster Cabaret, where no human has ever dared to go!

KC

Jade, you've really gotta stop watching reality TV.

JADE

Never!

Let me introduce you to our Monster Expedition Crew. Over there we have our monster expert, Westerly Temper field. She's (*he's*) been preparing for this documentary for three years, ever since we heard that a Monster Cabaret might exist!

WESTERLY

Wimpering wombat! The dirt particle resting on this footprint indicates that a pack of tiny werewolves passed through here about seventeen minutes ago!

JADE

Well done Westerly. And here we have Sunny. He's (*she's*) a...um...monster-expert in training!

SUNNY

(Picking up some goo with a handkerchief and going toward Westerly.)

Westerly! Westerly! Look at this! Rare monster slime!

WESTERLY

Oh, very interesting!

Sunny, you've managed to find a handkerchief with an authentic sample of...my runny nose.

SUNNY

Oh. Sorry. I thought it could have been from the Slimer!

WESTERLY

I only wish. If my memory serves, the Slimer releases a large volume of harmless ooze that scares everyone away.
